Compounding

Did you know that Hooper's Pharmacy was one of the first pharmacies in Canada to compound medication? The demand for customized compounding has increased as healthcare professionals and patients have realized that "one size does NOT fit all". Customized solutions are not commercially available but are becoming more of "what the doctor ordered".

Do you have a situation where the form of your medication is not meeting your needs? Are you interested in having your doctor speak to a professional about the options available? Then come into your local Hooper's and speak to our compounding pharmacist to see how we can compound almost anything!

Naturopathic Medicine

Naturopathic medicine focuses on treating the root cause of health using evidence-based nutrition, supplements, acupuncture, herbs and lifestyle therapy. Naturopathic doctors are highly-trained experts in the field of natural health.

Did you know that Hooper's Pharmacy has been supporting the Naturopathic profession since the 1980's? We pioneered the integration of complimentary medicine in pharmacy. We have a long standing relationship with the Canadian College of Naturopathic Medicine as well as local practicing Naturopaths. We are proud to have one of the largest selections of nutraceuticals available anywhere.

We have 3 Naturopathic Doctors on staff as part of our clinics: Dr. Mokhtari at the Integrated Medical Clinic in Vaughan, Dr. Lewis and Dr. Bartolini at the Centre for Collaborative Health in Oakville.

Contact either clinic to see how one of our Naturopaths can guide you on your journey to good health.
